ALVARADO ST.

THE projected opening of Alvarado st., from the end of the horse railway on Ninth st. to the extension of the Second-street cable line on Diamond st., will place the NOB HILL lots within two blocks of either of the lines of travel and give a transit better transit facilities than are possessed by any other street in the city of Los Angeles.

The owners of the NOB HILL TRACT desire to call the especial attention of the buying public to the fact that this tract is only 1½ miles from the new City Hall, and a ride of twelve minutes on the Second-st. cable line and a walk of six minutes from the end of the line will take you to the beautiful lots.

Water is now being piped to the tract, and early buyers can pick up some choice bargains. The new City Lake Park adjoins the entire NOB HILL TRACT, and Ocean View ave. affords a magnificent panorama of mountain ranges, rich and fertile valleys, costly residences, and splendid ucational institutions of the rolling surf at Santa Monica on a clear day.

Full information can be obtained of the owners,

A Splendid Piece of Property Placed on the Market.

—THE—

Southern California Land Co.

AGAIN TO THE FORE.

THE HOWES TRACT, on Jefferson street, including the handsome home residence and charming grounds of F. C. Howes, Esq., Cashier of Los Angeles National Bank, to be subdivided—375 large lots (one-fifth of an acre each), with nine beautiful residences, including the large cottage of 10 rooms of Mr. Howes, graded streets, etc., to be sold on the homestead plan at $190 per lot, in payments of $10 monthly, without interest, with first payment of $30.

The great success of the Southern California Land Company (Baker Block) with the Childs Tract, Urmston Tract, City Center Tract, Williamson Tract, Eleventh-street Block and Columbia Colony has been owing to the wonderfully low rates at which this popular company has placed first-class, well-located property before the public.

It is refreshing to note in the midst of the boom in real estate, that one reliable firm not only gives to the people homestead lots at about one-third the prices charged by others, but also performs all its promises to the letter, in the building of houses, opening out of streets, putting up electric lights and extending the improvements of our city to its farthest legitimate bounds.

The maps of the Howes Tract are now ready and all will be bustle and activity on this beautiful property; surveyors will be laying off streets and avenues, builders will be placing houses and pushing forward at once all the improvements promised, and the tract, now almost all covered with vines, orange trees and splendid foliage, will put on a metropolitan look and keep up with its beautiful surroundings of costly buildings and cottage residences.

The Howes Tract fronts on Jefferson street, west of Vermont avenue. The location is a very popular one, in the direct line of the city's rapid growth, and will soon be reached by lines of street railroad and the motor road on the west.

A great demand has sprung up, and names are coming in rapidly. The large salesroom of the SOUTHERN CALIFORNIA LAND COMPANY, 244 N. Main st., Baker Block, is filled every evening with subscribers until a late hour.

$190 per lot is not one-third the price of outlying lots in Pasadena or the rocky canyons around it, and not one-fourth the rate of the farthest subdivision of unmarketable tracts in East Los Angeles.

EDITOR BAKER, of Santa Ana, has been having a lot of fun over the alleged "sweeping" Democratic victory in the county and State. Editor Baker is a hopeful as well as a "sarkastick cuss."

THE advantages of the superb telegraphic service enjoyed by THE TIMES is daily apparent, as contrasted with certain grape-vine contemporaries. For instance, on Saturday THE TIMES had a column and a half dispatch, graphically written, concerning the vast mob which threatened to sack the jail in San Francisco the night before. The Tribune had a feeble half-column. It will be a cold day when that vast enterprise, the Western Associated Press, is equaled, and a colder day when it is distanced, by pigmy competitors.

The Whaling Fleet.

SAN FRANCISCO, Nov. 15.—The catch of the whaling fleet this season, excluding three vessels, exact figures for which cannot be given, is 16,797 barrels of oil and 252,710 pounds of bone. Estimates of the other three vessels brings the yield up to 20,317 barrels of oil and 322,710 pounds of bone. Out of over forty vessels engaged in whaling this year, four—the Orca, Hunter, Northern Light and Balaena—secured over one-third of the entire catch.

More Complications Ahead.

LONDON, Nov. 15.—Lord Salisbury, prime minister, Lord Iddlesleigh, foreign secretary, and Count Von Hotzfeiat, German ambassador, had a long conference to-day with reference to the candidacy of Prince Nicholas Mingrelia to the Bulgarian throne. It is reported that England, Austria and Germany object to Prince Nicholas.

Loss of a Steamer Off Japan—Brush Fires Raging in California—The Boodle Alderman Released on Bail—Fatal Railroad Accident.

By Telegraph to The Times.

NEW YORK, Nov. 15.—[By Western Associated Press.] Señor Vincent de Mestre, a member of the Spanish legation, who recently returned to this city from Rio de Janeiro, was arrested yesterday at the instance of Mlle. Jeavie de Maynard, an opera singer, who came here on the same steamer with him, on a charge of having robbed her of 110 francs, which she says he took to get changed for her into American money. In the police court to-day the bearing in the case was set down for Saturday next. Capt. de Mestre is a retired admiral of the Spanish navy. He has frequented New York through eighteen years. About six months ago he went to Rio de Janeiro. There he was in close relations with Emperor Dom Pedro. He returned here to arrange a commercial treaty between the United States, Brazil and the Argentine Republic. He has in his possession letters from the United States Minister at Rio Janeiro to President Cleveland, Secretary Bayard, Perry Belmont and well known New York merchants. The accused says he first met Mlle. de Maynard at a hotel in Rio where she was living as the mistress of a count who was a friend to the accused. On the voyage he paid attentions to Mlle. Maynard, and on her arrival took her to the house of a Mrs. Austin in this city. Mlle. Maynard was out of funds, and asked de Mestre to tell Mrs. Austin that he (de Mestre) had her money changing it for her. When the admiral refused to do this, Mlle. Maynard called Mrs. Austin into the room, and accused de Mestre of stealing her money. Then de Mestre left the house, and the next step was his arrest for the purpose, he says, of blackmail. Mlle. Maynard is about 25 years old, dark and handsome. She speaks no English. She had in court her four-year-old son Gabrielle.

THE CHICAGO STRIKE.

The Packers Agree to Resume Their Work Again.

CHICAGO, Nov. 15.—All opposition to Powderly's order directing the striking packing-house employés to return to work seems to have vanished. This morning the men assembled at their respective headquarters, indicated in the Sheriff's order issued yesterday, and applied for re-employment. The crowd was orderly and perfectly quiet. The foremen of the different houses selected such men as they required at once, and the remainder departed, evidently satisfied that they would be taken back as soon as the houses were in full running shape. The number of old men reëmployed this morning is between 1200 and 1500. All the strikers taken back are compelled to sign a paper in which they agree not to leave their work without giving their employers two weeks' notice. On the other hand, the packers agree not to discharge any of their men without giving them two weeks' notice. To still further bind the men to the agreement, each is required to deposit $50 with his employer. This sum is to be taken gradually out of his wages.

A Packers' Conference.

CHICAGO, Nov. 15.—At a meeting of the Packers' Association this afternoon the question of the length of time it would be necessary to keep the deputies and militia at the yards was discussed. No action was taken except to decide that it was desirable that they should be retained for a time at least. The houses have filled their complement of men. The question of requiring a guarantee or forfeit deposit was about the only other subject brought up. Exacting such condition upon re-employment was generally approved by those present, but the association as a body did not adopt it formally. Legal advice on the matter will be taken, it being feared that a form of agreement has not yet been devised that would be binding in law.

Quiet at Chicago.

CHICAGO, Nov. 15.—Contrary to expectation, the day at the stockyards was more quiet than for several weeks. All told, about 10,000 strikers made formal application for work. Not over 10 per cent. were given immediate employment. Indications this evening are decidedly of a peaceful character. Thirty-five imported men at Armour's resigned this afternoon and were furnished an escort of troops to the depot. The men were hooted on the way, but there was no demonstration of violence. The strikers who have returned to work have already begun to make it very unpleasant for the new men in a quiet manner. No overt acts could be charged, but numerous little things occurred this afternoon calculated to harrow up their feelings without furnishing a real pretext for complaint. If things remain as quiet to-morrow, General Fitzsimmons says he will recommend that the troops be withdrawn.

More Proposed Filibustering.

NEW YORK, Nov. 15.—A Dallas, Tex., special to the Sun says: "Two men have been here for five days organizing an agency in the interest of a filibustering expedition into Mexico. Yesterday morning they started for St. Louis, leaving a man here of extensive border experience to continue their work. There are now enrolled in Dallas twenty or thirty trusted men ready for a raid the moment a summons is received, and the number will be swelled to at least 100. Five times that number could be obtained, but great precaution is exercised in selecting men, and none but the most trusted are accepted. In this the promoters and leaders expect to prevent betrayal. In an interview one of the promoters of the scheme said: 'Our object is to establish a new republic of the Rio Grande, the eclectic confederation to be composed of the northwest Mexican States.'"

Loss of a Steamer.

SAN FRANCISCO, Nov. 15.—The steamer Oceanic, which arrived to-day from Hong-Kong and Yokahima, brings news of the foundering of the steamship Normantone off Ooshima, Japan, with seventy-two persons on board. Of these twelve reached shore. She was laden with tea for New York and Canada. No date of occurrence is given.

Brush Fires Raging.

NAPA, Nov. 15.—A severe north wind has blown for two days, and everything is as dry as tinder. There are three large mountain fires raging east of here, but it cannot be learned how much damage is being done.

The Boodler Released.

NEW YORK, Nov. 15.—Francis McCabe, the boodle alderman who was last week adjudged insane, has secured his release on bail from Lincoln street jail this afternoon. The required bond was $20,000.

EUROPEAN EVENTS.

Waldemar and Bulgaria—British Workingmen Talk Out.

COPENHAGEN, Nov. 15.—It is stated on authority that Prince Waldemar is personally willing to accept the throne of Bulgaria.

DETERMINED WORKINGMEN.

LONDON, Nov. 15.—The Council of the Social Democratic Federation will send a letter to the Marquis of Salisbury, demanding of him that he, as Prime Minister, receive a deputation of unemployed workingmen on next Sunday afternoon and hear from them a statement of reasons for governmental assistance. The letter will give as a reason for naming Sunday for receiving the deputation that it is the only day convenient for persons who will compose the deputation to wait formally upon the Prime Minister, because they are compelled to spend all their time on other days of the week seeking work, and the document will caution the Premier from attempting to evade the deputation and ask him to refrain from following this week his custom of going into the country on Saturday.

RUSSIA MOBILIZING.

SOFIA, Nov. 15.—It is rumored here that Russia is mobilizing troops.

GIVEN HIM UP.

SOFIA, Nov. 15.—Capt. Nabokoff, the revolutionary leader, has been delivered to the Russian consul at Brouragas.

London Wheat Market.

LONDON, Nov. 15.—The Mark Lane Express, in its review of the British grain trade during the past week, says the deliveries of wheat have been very small. Values at provincial exchanges have improved 6d. to 1s. Sales of English wheat during the week were 49,777 quarters, at 31s., against 47,410 quarters, at 31s., during the corresponding period last year. Flour is in a little better demand. Values are supported. Trade in foreign wheat in London is slow. Values are firm. American red is scarce. Indian wheats are in demand for mixing with the native crop by country millers. Corn is firm. Barley and oats are quiet. Beans and peas are 6d. dearer. One cargo of wheat arrived and one cargo was sold. To-day the wheat trade was very slow, but values were firm. English, American, Russian and Indian wheats each advanced 6d. There was an increased inquiry for flour, and prices were 3d. cheaper. Beans were 1s. dearer. Linseed was quiet, and 6d. lower.

A Civil Service Question.

NEW YORK, Nov. 15.—Thomas B. Harris, one of the employés of the custom-house, was re-examined recently with a view to promotion. Notwithstanding the fact that his percentage was the highest, the promotion was given to another man, an honorably-discharged soldier, to whom it was claimed the law gives preference. Harris wrote to President Cleveland to know why he had been set aside by a man far below him in the civil service examination. The case was referred to Collector Magone, who in turn referred it to the Civil Service Commission. Yesterday their decision was received. They are of the opinion that preferences are for admission to the classified service and do not extend to promotion therein. They hold that in a competitive examination for promotion in the civil service, those graded highest in the list should in all cases be first certified to the appointing officer.

San Francisco Races.

SAN FRANCISCO, Nov. 15.—Entrees for to-morrow's races: First race for all ages, one mile—Voltigner 85, Adeline 80, Estrella 106, Leppyar 80, Argo 101, Echo 115.

An Ex-Treasurer's Deficit.

LONG ISLAND CITY, Nov. 15.—The advertising of property by the City Treasurer, to be sold to-day for unpaid taxes, has led to the discovery that many persons whose property was advertised for sale held receipts for amounts appearing against them on the treasurer's books. Most of these receipts, covering $2000 or $3000, were issued during the term of Treasurer Jno. R. Morris, who committed suicide four years ago, just before the expiration of his term of office. The books of the treasurer's office show no record of receipt of the amount in question, and it is probable that suit will be commenced against the bondsmen of the deceased ex-treasurer as soon as the actual amount unaccounted for has been ascertained.

Fatal Railroad Accident.

PARIS, Nov. 15.—Particulars have been received of a railway accident at Sisteron, in the department of Basses, Alpes. It appears that about 300,000 cubic meters of rocky earth fell from Mount Gerves, overwhelming the train which was proceeding at full speed from Marseilles. One first-class carriage was crushed to atoms and the engine was overturned. The driver, conductor, telegraph clerk and four English passengers were killed on the spot, and two other passengers have since died of their injuries. The fireman's life is despaired of. Twenty others are suffering from injuries.

Government Liberality.

WASHINGTON, Nov. 15.—The Secretary of War has decided that the soldiers belonging to Col. Lawton's command who were provided with worthless shoes from the military prison at Fort Leavenworth while in pursuit of Geronimo's band shall be fully reimbursed.

Discussion of the Question of Federal Aid.

The San Diego Count will Not be Known Until To-morrow.

A Bitter Family Feud Breaks out in Kentucky.

Deliberate Suicide in Boston by the Use of Gas—Several Business Failures in Denver—A Negro Lynched in Tennessee.

By Telegraph to The Times.

BOSTON, Nov. 15.—[By the Western Associated Press] The meeting of the committees on Federal aid to the common schools, appointed in July last by the National Teachers' Association, at Topeka, and the American Institute of Instruction, at Bar Harbor, which has been in session here for the past week, adjourned to-day to meet in Washington at the Convention of State School Superintendents in February. The committee discussed the Senate bill for Federal aid to the common schools and voted a report favoring its principles, but no action was taken as to the general features of the bill. In accordance with the resolutions of the conventions at Topeka and Bar Harbor the committees were to enlarged as to give each State and Territory local representation in the convention at Washington. The following school officers were elected to serve on the local committees on representation of States and as members of the Federal Aid Convention: All State and Territorial Superintendents of public instruction, superintendents of schools in southern cities and towns of no re than 10,000 inhabitants, and school superintendents of cities of 5000 or more inhabitants, presidents of the National Teachers' Association and American Institute of Instruction and others prominently connected with the national aid movement. It is thought that a second interstate educational convention like that held at Louisville, in 1883, may be called, though no formal action was taken to memorialize Congress, other than to propose a mass convention in February. The committee is sanguine that aid will be granted, either as provided in the Senate or through some similar draft.

Must Wait Till Wednesday.

SAN DIEGO, Nov. 15.—The Board of Supervisors began the official count of the vote of this county to-day. Twenty precincts out of fifty-four were canvassed. At this rate the count will not be completed till Wednesday.

A Kentucky War.

LOUISVILLE (Ky.), Nov. 15.—A Courier-Journal special says: "The war in Perry county, between the French and Eversol factions, has broken out afresh. Almost every citizen of the county has taken sides with one or the other of these mountain merchant princes, as they are called. Both factions seem to have come to the conclusion that there can be no settlement except by extermination. Both factions are armed, and the first shot will bring about a general war. The feud between French and Eversol dates back several years. They are rivals in business, and control the entire trade of several mountain counties."

A Deliberate Suicide.

BOSTON, Nov. 15.—Edgar Lombard, of the firm of A. C. Lombard & Sons, one of the best known shipping firms in this part of the country, committed suicide this forenoon while laboring under a fit of despondency caused by family troubles. Deceased locked himself in the bathroom, and taking a rubber drop-light tube, fastened one end over the gas burner, then putting the other end into his mouth lay down and inhaled the gas until he was asphyxiated.

Beaver Failures.

DENVER (Col.), Nov. 15.—Julius Perlinskey, dealer in clothing and general furnishing goods, made an assignment this afternoon to Henry J. Mor. Liabilities $40,000, assets $20,000. He owes Chicago houses $25,000. The remainder is distributed among New York, Rochester, Albany, Buffalo, Philadelphia, Boston and San Francisco houses.

The dry goods and cloak house of L. B. Weil was taken possession of by the sheriff this afternoon, upon a confessed judgment in the District Court in favor of the Colorado National Bank for $10,000. The stock is estimated to be worth $45,000.

A Negro Lynched.

NASHVILLE (Tenn.), Nov. 15.—A special to the American from McKenzie, Tenn., says: "Charlie Dinwiddie, colored, was with assaulting and robbing one Jennings, arrested here Saturday night charged a white man. About 10 o'clock to-night twenty-five masked men rode into town, coming from the direction of Huntington, and proceeded to the caboose, where a portion of the crowd instantly rushed into the caboose with drawn pistols, overpowering the guard. They then riddled the body of the negro with pistol balls.

Cannot Recover Damages.

WASHINGTON (D. C.), Nov. 15.—A decision has been rendered by the Supreme Court in case of the steamer Harrisburg and her owners, appellants—the United States. Emma S. Rickerts et al. appeal from the United States Circuit Court for the Eastern District of Pennsylvania. This was a suit brought to recover damages for loss of human life through alleged carelessness and negligence of the employés on board the steamer Harrisburg. The court decided that in the absence of any national law giving the right of action to recover damages for the death of a human being on the high seas or on navigable waters, communicating therewith, suit in the admiralty courts of the United States cannot be maintained.

Federal Buildings for El Paso.

EL PASO, Nov. 15.—Col. Thomas Foster, agent of the United States Treasury Department, arrived this morning and opened proposals for the sale of a lot to the government for the erection of a custom-house, courthouse and postoffice, for which an appropriation of $150,000 was made at the last session of Congress. There were sixteen offers, ranging from $1000 to $34,000, and the lots offered are located in all parts of the city. Col. Thomas Foster will not make a selection until he returns to Washington.

CHICAGO ANARCHISTS

WILL PROBABLY GET SEVERAL MONTHS' RESPITE.

Death of Two Fine Racers—Powderly Orders the Strikers to Resume Work—Santa Cruz Threatened by a Brush Fire.

By Telegraph to The Times.

CHICAGO, Nov. 15.—A letter received from Col. R. G. Ingersoll says that he had not time to connect himself in any way with the case of the anarchists and therefore would have nothing to do with it.

A certificate of evidence of bill of exceptions has at last been signed, filed and put on record in the office of the clerk of the Criminal Court. The paper, or bale of paper, will be transcribed to the Supreme Court. The defense will then proceed to reach the ear of any member of the Supreme Court when the case will be called for consideration. Thus the condemned men are held for many months, although Mr. Grinnell has said that this manner of argument of supersedeas may not be granted, a contingency which is, however, not to be reasonably anticipated.

Two Fine Horses Dead.

SAN FRANCISCO, Nov. 15.—Baldwin's celebrated race horse, Silver Cloud, while exercising at the Bay District track yesterday, accidentally ran his head against a gate-post and was killed instantly. He was valued at $30,000. A dispatch was received here yesterday from Monmouth Park announcing the death of Haggin's King Fox from lung fever, contracted at Sheepshead Bay. He was valued at $35,000.

San Cruz Threatened.

SANTA CRUZ, Nov. 15.—A dense brush fire is raging within three miles of this city and the wind is tending to spread it in all directions. In the pathway of the fire are many houses and barns. A large force of men are at work fighting it.

Choctaw Claims Allowed.

WASHINGTON, Nov. 15.—A decision was rendered by the United States Supreme Court to-day in the case of the Choctaw Nation against the United States. The suit was brought in order to obtain judicial settlement of all existing claims of the Choctaw Nation against the United States government. This Court, in a long and carefully prepared opinion by Justice Matthews, holds that the Choctaw nation is entitled to a judgment against the United States for the following sums: First, $2,981,349, subject to a deduction of $350,000, under the act of 1881; second, for unpaid annuities, $59,440; third, for tax taken in fixing the boundary of the border State of Arkansas and the Choctaw nation, $64,022. The judgment of the Court of Claims is therefore reversed and the cause is remanded to that court with instructions to enter judgment in conformity with the opinion.

Big Winnings.

NEW YORK, Nov. 15.—Dwyer Bros., of Brooklyn, according to advance proofs of "Goodwin's Official Turf Guide," have won $308,540.16 on the turf this year. Of this enormous sum Tremont furnished $40,055, Inspector B. $38,760, Dewdrop $27,785, Miss Woodford $21,580. This sum is the largest ever won in this country by a single stable. Dwyer Bros. had phenomenal success in the beginning of the season, but their troubles began when Dew Drop died and Miss Woodford broke down. Their expenses have been enormous, and it is doubtful if they made a great deal of money, when the prices paid for Rancoas horses are considered. Their winnings, in 1885, were $75,227.

Crawling Through the Meshes.

HOLLISTER (Cal.), Nov. 15.—The case of the People vs. Prewett and Irwin came up this morning, and, upon motion of the prosecution, was continued until April 15th, 1887. Defendants moved for dismissal and release on their own recognizance, both of which were denied by the court. It is claimed that efforts will be made during the session of the next Legislature to secure the passage of an act giving the State the right of change of venue in certain emergencies. The information against Ashcraft, Chapman, Maynard and Gilbert were dismissed, leaving only Prewett and Irwin's cases undisposed of.

The Usual Result.

SAN FRANCISCO, Nov. 15.—On the evening of November 6th John O'Grady and his wife were quarreling, when Patrick Cleary and his wife, Johanna, entered the O'Grady premises and endeavored to quell the tumult. O'Grady hurled a coal-oil lamp at the peacemakers, striking Mrs. Cleary, severely burning and cutting her. To-day she died from her burns. O'Grady was arrested for assault with a deadly weapon. The charge will probably be changed to murder.

California Fruit-Growers.

SACRAMENTO, Nov. 15.—The sixth annual session of the Fruit-Growers' Association convened at the State Capitol at 2 p.m. to-day. There was a good attendance. It will hold daily sessions throughout the week, discussing insect pests and the care of trees, preparation for marketing and disposition of fruits, varieties and kinds of fruits to be exchanged, and pastection of the fruit industry. Insect pests is the subject of to-day's discussion.

Assassinated.

SAN FRANCISCO, Nov. 15.—A schooner which arrived from Kodiak island, Alaska, yesterday, brought the body of the Alaska Commercial Company's agent, B. G. McIntyre. While seated at supper with several other gentlemen, in the company's house, on the evening of October 1st, he was instantly killed by a charge of slugs or buckshot, fired through an open window behind him. It is unknown who fired the shot.

A Missing Miner.

FRENCH GULCH (Cal.), Nov. 15.—Considerable excitement prevails at Lewiston, Trinity county, over the disappearance of Pat Cronin, a well-to-do miner of that place. He has been missing since November 2d. The river has been dragged and men are still in search. Blood was discovered on stones near his cabin to-day. One thousand dollars reward is offered for his discovery.

A Bank Suspends.

LITTLE ROCK (Ark.), Nov. 15.—The First National Bank of Pine Bluff, Ark., closed its doors this morning. C. M. Neel, the principal owner, also owns the Swan Lake Railroad. He explains that the suspension was caused by drafts on cotton and commission merchants not being honored. He is understood to possess large means, but nothing is yet known as to the extent of his liabilities.

A New Railroad.

SAN FRANCISCO, Nov. 15.—The Pacific and Atlantic Railroad Company has incorporated. The company proposes to construct a narrow-gauge railroad with perhaps a third rail to make it a standard road also, from a point on San Francisco Bay, in Contra Costa county, easterly and southerly, by the most practicable route, through Contra Costa, Alameda, San Joaquin, Stanislaus, Merced, Fresno and Tulare counties to the town of Bakersfield in Kern county. The estimated length of the road is to be 315 miles. The capital is $10,000,000, divided into 100,000 shares of a par value of $100 each, of which $400,000 have been actually subscribed. The trustees are Chester G. Cutter, William R. Alberger of Alameda, Charles R. Thompson, Andrew J. Booth and Charles W. Nevin, of this city.

Fire at a Farm.

REDWOOD CITY, Nov. 15.—Last night while John Pleeg, a farmer, residing a few miles west of this town, on the Belmont ranch, was engaged in feeding his stock, the lantern which he carried evidently exploded, setting fire to the hay. Before help could be obtained, the entire building and adjoining granary were consumed with the contents. Thirty-seven pair of harness, 300 bales of hay, a lot of grain, and a pair of horses, valued at $800 each, were burned. The buildings belonged to Lickert & Co. No insurance.

Killed by Mexicans.

PHOENIX, (Ariz.) Nov. 15.—News has reached here of the killing of C. P. Stanton, at Antelope, by three Mexicans. Two of them entered Stanton's store and began firing at Stanton and a man named Kelly. The third Mexican also opened fire through a window. Stanton was instantly killed, and Kelly returned the fire, killing one Mexican. The other two escaped. Stanton is said to have been implicated in the Barney Martin massacre a few months ago.

A Motion Denied.

SAN FRANCISCO, Nov. 15.—Circuit Judge Sawyer has denied the motion to transfer the case of Juan M. Luco vs. Robert S. Baker et al., to the southern circuit of California for trial, on the ground that the action is against the person and not against the land. The suit was brought last July, and involves the title to 160 acres of land, including the Pico oil spring mine in Los Angeles county.

Barn Burned.

SAN FRANCISCO, Nov. 15.—A large barn at the intersection of Shattuck and Telegraph avenues, Temescal, Alameda county, was burned this morning with forty tons of hay, four horses, a cow and two wagons. Loss, $7500. A laundry building adjoining the property of the Ladies' Relief Society at Temescal was also burned this morning. Loss, $900.

Trades Union Convention.

PITTSBURG (Pa.), Nov. 15.—The next issue of the Labor Tribune will contain a call for a convention of all trades unions in the United States and Canada, to begin at Columbus, Ohio, on Wednesday, December 8th. The object of this meeting, as set forth in the circular, is the establishment of a trades' congress.

Death of an Old Californian.

SAN FRANCISCO, Nov. 15.—Nicholas G. Kittle, a member of the well-known firm of Kittle & Co., and vice-president of the Union Insurance Company, died this morning. The deceased was an old Californian, 61 years of age, and leaves a wife and four children.

SANTA BARBARA'S CENTENNIAL.

Progress Made in the Arrangements for a Unique Affair.

[Santa Barbara Press, Nov. 11.]

For weeks past a large number of committees of the Go-Ahead Club, assisted by many ladies and gentlemen outside of that organization, have been busily at work getting matters into shape for the four days' celebration of the centennial of the Mission on the 5th, 6th, 7th and 8th of next month, and their efforts have now reached a point where success is assured.

The celebration will be begun on Sunday, December 5th, by most elaborate services at the Mission, which will be participated in by about 40 priests from all parts of the State. The music will be on a grand scale and will include much of our local talent.

Designs have been prepared for three arches to span State street. The central and most elaborate will have two towers, designed after the towers of the mission, rising from the sidewalk, and the arch across the street will represent the chapel of the mission. This arch will be about 50 feet high, and will be handsomely decorated with evergreens, palm leaves, bunting, etc.

The second arch will represent agriculture, and will be trimmed with all the grains, fruits and varied productions of the county, and will be surmounted with the latest styles of agricultural implements.

The third arch will be composed of strings of evergreens across the street suspended from poles erected for the purpose. . . .

On Monday will take place the grand procession, for which the plans are now almost complete. The first part of the parade will represent as nearly as possible the characteristic life and costumes of a century ago, and the whole county is being ransacked for old costumes; a large number of ox-carts with their teams have been secured. Spanish cavaliers on horseback, with a representation of many of the old arts now falling into decay. The second division of the parade will represent the present and will consist of a trades' parade. The parade will be marshaled by N. A. Covarrubias, of Los Angeles, and there will be ten mounted aids to the marshal, all dressed in old-time and appropriate costumes, which are now being made from accurate designs.

On Monday evening there will be two balls, one, a fancy dress ball at the Arlington, and the other at the theater. On Tuesday and Wednesday there will be a carnival at the Pavilion at Agricultural Park, and there will be booths representing a New England kitchen, Spanish and Gypsy life, an English dinner, stands for the sale of fancy articles, ice cream, flowers, confectionery, lemonade, etc. On one evening there will be a Spanish fandango and concert.

An application has been made to the Pacific Coast Steamship Company for excursion rates from San Francisco and Los Angeles, and it is expected that a large number of visitors will be here from those cities.

During the entire week there will be a series of races at the race track. It is probable that some time during the celebration there will be given an exhibition of fancy riding, lassoing cattle, etc., possibly at the Hope Ranch.

RAILROAD NEWS.

THE R., S. A. & L. A. R. R. PUSHING TOWARD ANAHEIM.

A Large Force of Men and Teams Already at Work—A Result of the Official Visit Made Recently.

The Anaheim Gazette presents the following important information as to the building of a road in which Los Angeles is equally interested:

"The plans of the Riverside, Santa Ana and Los Angeles Railroad Company having been fully matured during the recent visit of the Atchison, Topeka and Santa Fé officials to this coast there is now no longer any reason for secrecy regarding their intentions, and we are at liberty to make public announcement of their plans. We learn that the Gazette has been the subject of sneering and adverse criticism on the part of blatant idiots and scheming fools because it did not publish the rumors, some true and some absurd, which have been plentiful of late regarding railroad developments; but the truth is that the few facts that we had knowledge of regarding the contemplated movements were confided to us under a promise of secrecy, and their publication would have embarrassed the railroad officials and delayed the work instead of helping it. As before stated, their arrangements being now made, a complete publication of the proposed work may now be given, and this paper will publish from time to time full details of the progress of the work.

"The instructions given to Chief Engineer Ferris by the high officials of the road were to push the road to Anaheim as fast as men and money can do it. These instructions Mr. Perris will literally obey, and he has already placed a large force of men and teams on the grade below Arlington. The necessary rights of way have already been secured or are in process of adjustment, and a small army of men will at once be placed at work at advantageous points along the route.

"At a meeting of the citizens of Anaheim held last fall a committee then appointed were authorized to promise the right of way through the Santa Ana cañon. This right of way has been almost all secured, through the indefatigable efforts of the committee, and Mr. Perris urges that the "missing links" be gathered in forthwith. The committee are still at work, and it is probable that they will be able to call a meeting of the people next week to report upon what has been done, and what remains to be done.

"In consideration of the good will and efforts of the people of Anaheim in securing this right of way, we are authorized by Mr. Perris to state that the road will be built to Anaheim at once, and a depot established in the town.

"Whether the road will be pushed beyond Anaheim is doubtful at the present time. It is quite possible that Anaheim will be the terminus for a long time to come—a consummation devoutly to be wished. The movements on this railroad checker-board are exceedingly complicated, but the position at the present is quite favorable to Anaheim as the terminal point for this important line of road.

"The route of the road after it leaves the cañon is not known to the writer, but Mr. Northam informs us that he has information from Mr. Perris that the half-section line will be the one adopted. If so, this will bring the spur to Anaheim by way of Olive street, and give us a depot at a convenient distance from the business part of town."

"ONE ETERNAL KISS."

He Lost Her Letter and Here it is in "The Times."

An alert correspondent sends the following to THE TIMES. It is very touching:

TO THE EDITOR OF THE TIMES: The following extracts are from a letter picked up on one of the streets of Los Angeles [naming it]. Names, dates and locality from whence the letter came are of course sacred. As a literary effort, I deem it a marvel:

. . . . . Nov. . . . . '86.

I have just received your darling letter. What a precious one it is! Marius said to Cassette: "I love you." Cassette said: "I adore you." Am I not your Cassette? Unhappy rumors have reached me . . . concerning my visit to Los Angeles. I tremble for fear my darling husband may have the horrid tale blown in his ear. What if that sweet wife of yours should hear of it? I cannot imagine who the traitor can be, or the silly gossip who would publish the innocent loves of Southern California's "Antony and Cleopatra." I know your best, imperious, tempestuous temper, and for fear that you may do something rash, I ask you, in the name of the Highest, spare me and my character, your own precious life and character. As you value our kingly and queenly pride and character, let the matter pass from your mind. Brine no stain upon us by any rash act. We are too proud to have such a thing known to the public. . . . If you love me, for *my sake* and for *God's sake* say nothing; do nothing; trust to a woman's intuition and fact to guide us safely through the treasonous breakers. I believe the hand of our Heavenly Father will be stretched out to help us in this our time of danger. . . . Oh, darling, God knows I love you too well. . . . I have been your *slave* in this matter. Please be mine.

Do not write to me until I tell you. . . . If I could I would give you one eternal kiss. . . .

Your darling, ...

HALLELUJAH!

California Democracy to the front. Slow but sure. Washington Bartlett got there just the same. Swift but slow, the Republican leeberg and crew, have floated off to the head of old Salt river. O'Donnell, Wigginton and Russell have joined the gang. Walter Moore went down, as he said he would, like "Gallagher's goat, a roarin'." Nearly every man on the Democratic State ticket elected, and later returns still swelling the votes. The Radicals came down like a wolf on the fold, and their pockets were laden with silver and gold, and the way it was scattered was a sight to behold, but there is weeping and wailing in the tents of the Philistines and their idols are broken in the temple of Baal. The legislature Democratic and a majority of twelve on a joint ballot. None got away. The O'Donnell vote 12,000 and nobody hurt but Swift, who advised his friends to vote for the old sinner in preference to Bartlett. Wigginton gives up the ghost, and, like Bill Poole, says, "I die a true American." Old Father Russell says it was a bad day for cattle Dyer and an off year for dry drinks. No cold Waterman peed apply under a Democratic administration. Oh, that will be glorious when with Democracy victorious, Governor Bartlett is reigning o'er us. The woods aint so full of 'em as it was, but they fled there to avoid the wrath to come. For the book saith, "They shall flee unto the mountains of Hepsidam, where the lion roareth and the whang-doodle mourneth for its first born." We guess that they fled before election for Swift's votes didn't materialize very largely. General Vandever has fled to the shades of his classic Ventura home, wrapped himself in Cæsar's mantle, fortified his castle against Democratic raids, and avows himself a '49er; while the gallant Joseph holds the fort in the Sixth District, and says, "Shake not your gory locks at me, thou can'st not say I did it." Dinna ye hear the Slogan? 'tis Bartlett and his men, for we're coming, father Bartlett, many thousand strong. Crow, Democrats, crow, for you're again on top in California!

Blaine's Trump Card.

[New York Sun.]

If Mr. Blaine should run against a strong Democrat in 1888 the combined Prohibitionist and Mugwump secession would naturally result in defeating him again.

But if Mr. Blaine should run against the strongest of Democrats, with Henry George in the field as the Presidential candidate of the labor organizations, developing throughout the country anything like the strength he showed in this town, could Mr. Blaine be defeated?

What would the Republican loss in Prohibitionist and Mugwump votes be compared with the Democratic loss in votes for the Labor candidate?

As things stand to-day, it would seem to be a pretty sure card for Brother Blaine. Does anybody think he doesn't see it?

A Voice From Arizona.

[Arizona Citizen.]

One of the most indicrousdevelopments for which the recent political campaign is responsible, is the assumption by the defeated Democratic candidate in the Sixth Congressional District of California, that every Democrat who did not vote for him is an ingrate and traitor, compared with whom Judas Iscariot is a saint, and no bastinado nor anathema can inflict adequate punishment for the heinous offense. Gall and wormwood are honey and treacle compared to the bitterness of such consuming disappointment!

TWO FRIENDS MEET.

"Hello! Old Fellow! What have you been doing to yourself? You look like a subject for the undertaker," exclaimed the man on the right.

"I have been taking mercury and potash mixtures until they have nearly ruined me," squeaked the old man on crutches.

"And I, said the other, "have been taking the genuine Swift's Specific, which has built me up from the first dose."

SWIFT'S SPECIFIC.

Nature's own remedy, made from roots gathered from the forests of Georgia. The method by which it is made was obtained by a half-breed from the Creek Indians, who inhabited a certain portion of Georgia, which was communicated to one of the early settlers, and thus the formula has been handed down to the present day. The demand has been increasing until a 6,000,000 laboratory is now necessarily to supply the trade. A foreign demand has been created, and enlarged facilities will be necessary to meet it. THE OSTRICH FARM RAILROAD.

The bond of the Ostrich Farm Railroad Company for $10,000, with M. L. Wicks and R. F. Lobspitch as sureties, was read and approved.

The motion postponing railway franchises was then reconsidered, and the Ostrich Farm Railroad franchise was taken up and read.

The time of the franchise was limited to thirty years. The revised franchise changes the line of the roadbed railroad as follows: Beginning at the intersection of Short and Upper Main streets; thence along Short street to Bellevue avenue; thence along the center line of Bellevue avenue to Beaudry avenue; thence on Beaudry avenue to Elysian Park avenue; thence along the center line of Elysian Park avenue to Reservoir street; thence along the center line of Reservoir street to a point about 933 feet easterly from intersection of Reservoir and Alvarado streets; across Alvarado street at a point about 579 feet southerly from intersection of Reservoir and Alvarado streets; across Reservoir street at a point about 806 feet easterly from intersection of Micheltorena and Reservoir streets; across Micheltorena street at a point about 920 feet northerly from intersection of Micheltorena and Reservoir streets; across Effie street at a point abou. 357 feet westerly from lot 8, block 35. The cars will be run or propelled from place of beginning to Elysian Park avenue by horses or cars, two horses or two mules to each car; the remaining portion of said road to be operated by steam motor. The ordinance was then passed.

Notice that Messrs. Smith & Brown have graded and graveled Los Angeles street, between Mayo and Fifth streets, and recommend its acceptance. No action.

The report of the Land Committee, a number of bids for printing, a lot of railroad franchises and bonds, and a large number of petitions were on the table at 6:30 p.m., when the Council adjourned till 7 o'clock Tuesday evening.

A Dangerous Locality.

An eye-witness sends THE TIMES the following: "On Sunday evening, between 8 and 9 o'clock, two young ladies were returning from church on their way home, and when near the corner of Eighth and Main streets, a man suddenly jumped out from behind a haystack, made a run toward them, and told them to stop. When the ladies saw him, they ran and screamed. I happened to be walking up on the other side, and I went over to their assistance. The fellow started on a run up Eighth street, and that was the last seen of him."

OUR NEIGHBORS.

Pasadena.

PASADENA, Nov. 15.—[Correspondence of THE TIMES.] Surveyors for both the Southern Pacific and the Atlantic and Pacific are said to be industriously at work, running lines into Pasadena by way of Raymond. It is supposed that the latter road is seeking an outlet through the Canyada valley.

The proposed banquet by the people of Pasadena in honor of the completion of the Raymond will take place on Saturday evening next, at that hotel. It has been necessary to hasten the event a little, on account of the expected return of Walter Raymond to Boston. A general invitation to our citizens is extended. Tickets will be $5 each.

The grand dedicatory ball will take place at the Raymond Wednesday evening, and the indications are that it will be very largely attended.

Heydenreich's warehouse and other neighboring property has been bought by a Mr. Eishman, of Los Angeles, and people are speculating as to what purpose it will be used.

A number of the officers of the U. S. S. Rush, lately arrived at San Pedro, paid Pasadena a visit yesterday. Among them were Capt. Baker, Lieut. West and Lieut. Paul Barnes, the latter of whom has relatives here.

A New Hotel-Site.

C. S. Hussey has sold to Edwin Ward the summit of Signal Hill, Long Beach, containing not less than ten nor more than fifteen acres, at $75 per acre. The intention of Poet Ward is to make this the site of another Raymond Hotel. It is a lovely location.

The Republican Leader.

The San Francisco Bulletin of last Saturday prints a strong and handsome editorial, which we quote in full: "If John F. Swift is beaten for the office of Governor it will only be by a small plurality. His defeat, if it has been accomplished, was brought about by a small defection in his own party. There is some analogy between his case and that of Blaine in the late Presidential campaign. A development of political Phariseeism in the Republican party, which went by the name of Mugwumpery, was the main cause of the election of Cleveland. A mild form of Chauvinism was the principal instrumentality in laying out Mr. Swift. The political disease which has been productive of these results seems to be peculiar to the Republican party. It manifests itself only when a leader of unquestioned ability presents himself. It is effective in many cases only because of the closeness of political parties, not only in the nation, but in many of the Republican States. There is no tendency in the Democratic party that corresponds to this sloughing off in the Republican organization at the critical moment. The power has more discipline, and whatever may be its mistakes in other directions, it knows enough to rally around its true leaders.

"Swift made a brilliant canvass of the State—the most brilliant since the days of Booth. He came before the people saying what he had to say with force, clearness and candor. If he had a point to make he made it with all the power which a trained intellect and and deep philosophic insight could impart. There were in him none of the soft, oily ways of the regular politician. He was not in any sense a disciple of Talleyrand, who believed the language was made to conceal and not to communicate thought. He proclaimed right out the message which he bore to the constituency whose suffrages he sought. He was as different from the usual seeker after popular favor as directness and candor are from public flattery and the arts of the courtier.

"The wonder was what manner of man this was, and small dogs everywhere barked and snapped. He was tendered a nomination by a new party, believed by many to have been gotten up to entangle him, which put forward doctrines which, if not exactly antagonistic to those of the Republican party, on whose platform he stood, and whose standard-bearer he was, had not been accepted by it. He had no right by an acceptance to incorporate any new principles in its creed. He refused directly, candidly and bluntly the proffered honor. The politician, more anxious for the place he sought than to illustrate the principles of his party, would perhaps have managed the matter differently. He would have framed a reply that could be construed by all parties to the controversy as favorable to their side. The new party which tendered the second nomination would have read in it an indorsement of its views, while the original party would be satisfied that no attempt had been made to introduce an interpolation into its profession of political faith.

"But that was something that Swift could not do, if his life depended upon it. He had to say either that he would or would not accept the nomination in question, and to say it with all the force and strength of a master mind. His course was, at the same time, a novelty in politics. It should have been regarded as a revelation. The correct reading was that here was a man that disdained to resort to the old political ambidexterity, even to gain votes in a contest for the most glittering prize in the gift of the people of California. There was a glimpse of the imperial will and steadfast adherence to principle that could not fail to be of the greatest advantage in the administration of the State Government. But it was read by a different light altogether. Candor, truthfulness and political propriety were translated into their opposites. There is no use, however, in attempting to rake over the coals of this contest. If Swift has not won the Governorship he has won the leadership of his party. He preferred to go down rather than tamper with the sacred trust which he received at the hands of the Los Angeles Convention. The time will come, and is not far distant, when he will be heard with more eagerness than ever. His defeat is of that character which unites him and his party all the closer."

"Is Boodle King?"

Ben Morgan has written an open letter to George Hearst, which "Jayhawker" sends to THE TIMES, and which will be found in another column of this page.

After reading that letter, of course Mr. Hearst will go straight off and withdraw, and thus save California from ridicule and reproach, and the Democratic party from disgrace. Mr. Hearst is that sort of man. Mr. Morgan's benevolent scheme to take up a subscription to recoup Uncle George for his "losses in the campaign," to-wit, buying the seats of Democratic legislators, etc., is a very neat and considerate scheme indeed, and we rather like it. In fact, we are decidedly in favor of it, and if Mr. Morgan will send THE TIMES one of his subscription blanks, we will agree to open a subscription in THE TIMES office "for the purpose specified, as hereinbefore set forth, substantially as described," as the patent attorneys would say; provided, however, that we are guaranteed in advance that Mr. Hearst will not make the race and attempt to "get there." We should feel sore, after helping to raise money to make Uncle George whole for "boodle" outlays in the canvass, to have him made Senator after all. The fact is, neither the Republican nor the Democratic parties, nor the State of California, can afford to have that thing done.

State Footings.

The latest election returns received by mail foot up as follows, with three counties still to be heard from officially. We give only the vote of the Republican and Democratic candidates:

GOVERNOR.	
Swift, R.	84,003
Bartlett, D.	84,873
LIEUTENANT GOVERNOR.	
Waterman, R.	80,554
Tarpey, D.	86,747
SECRETARY OF STATE.	
Moore, R.	79,900
Hendricks, D.	86,942
CONTROLLER.	
Denny, R.	84,125
Dunn, D.	85,940
TREASURER.	
Neff, R.	81,939
Herold, D.	82,987
ATTORNEY-GENERAL.	
Hart, R.	84,546
Johnson, D.	86,256
SURVEYOR-GENERAL.	
Reichert, R.	88,857
Miller, D.	82,960
CLERK OF SUPREME COURT.	
Orr, R.	82,677
Spencer, D.	84,584
SUPERINTENDENT OF PUBLIC INSTRUCTION	
Holtt, R.	87,703
Moulder, D.	87,737

This compilation is made from four of the latest San Francisco papers—the Bulletin, Chronicle, Examiner and Alta—all rolled into one, so to speak; and if their figures are not to be depended upon, which is probably the case, we will have to wait for the official returns from Sacramento some time in the sacharine future. The table indicates the election of four Republicans—Waterman for Lieutenant-Governor, Neff for Treasurer, Reichert for Surveyor-General and Hoitt for Superintendent of Public Instruction—the latter by a majority of only 16 over his Democratic opponent, Moulder.

The difference between Bartlett and Swift, as here shown, is only 620 votes, which it is not impossible to rub out yet by a final revision of all the returns. Such a desirable consummation is not probable, however.

Sixth District—General Vandever's Plurality 81.

With all the counties in the district heard from officially except San Diego, which will not be counted until to-morrow, but whose plurality of 829 for Vandever will probably not be changed by the official count, a half dozen votes, the grand result is as follows:

Counties.	Vandever.	Lynch.
Fresno	1,391	1,835
Inyo	249	304
Kern	533	1,537
Los Angeles	5,597	5,314
Alpine	58	26
Mono	430	276
Monterey	1,473	1,467
San Benito	531	734
San Bernardino	1,507	1,402
San Luis Obispo	1,373	1,213
Santa Barbara	1,193	1,537
San Diego	1,549	1,020
Tulare	1,639	1,985
Ventura	819	572
Totals	18,143	18,003

This will do. Gen. William Vandever, M. C., the Sixth Congressional District of California salutes you!

COL. BOB INGERSOLL did not have time to join the anarchist side in the trial of their cases.

"JAYHAWKER"

IS BOODLE KING?

AN OPEN LETTER TO GEORGE HEARST IN REGARD TO BOODLE LIEN ON THE LEGISLATURE.

The Legislature of 1887 Is Plainly Republican, and the Republicans Have Its Rights and Will Get Them.

SAN FRANCISCO, Nov. 14, 1886.
Correspondence of THE TIMES.
King?" is a question which is agitating the Democratic mind in the State of this State, and the question has become so long that in many cases it is looked upon as entirely too late for using the campaign just closed. The Chronicle did not hesitate to charge Senator Hearst's seat in the Senate was bought, and bought openly, and that editorially, the Senator and his friends never even replied to it, and by their silence gave the public to understand that it was about it. This conclusion was arrived at by public opinion indicates that the Democratic Legislature of the alleged purchase will be guilty of no more felony amounts to anything. The Chronicle has invited a judicial investigation of the matter, but does not seem disposed to push the judicial investigation of the charges of the criminal charge against Hearst.

BEN. MORGAN'S OPEN LETTER, which will be addressed to Hearst, published in the papers, is a remarkable outburst of indignation that its publication became necessary to a full understanding of Mr. Hearst and surroundings of Mr. Hearst, and it here, so that if you have not seen it you can do so.

IS BOODLE KING?

AN OPEN LETTER TO GEORGE HEARST IN REGARD TO BOODLE LIEN ON THE LEGISLATURE.

DEAR SIR: It has been a prominent matter of talk in this city that you will be a candidate for the Legislature, United States Senator from California. When the question of money for the accomplishment of the legislative purpose was discussed, and therefore with the knowledge of others, very seriously affected you will upon that question depend the success or defeat of the Democratic party in this State, because it is a matter of public notoriety that large sums of money were expended, during the campaign just closed, by the Democratic managers to be possessed of prior knowledge of the base and degrading character of the bargaining that it has recently been charged was entered into by you, and which, if true, would be a disgrace to the State, and will not be openly tendered upon a public auction block, but alone. During the last few days before the election, when the votes were loudly inveighed against by the Democratic orator, for their corruption in our politics. This was one of the causes of our success in the campaign, for money alone secures you the votes that are a pocket borough will answer. King. You have been charged with how corruptly money was expended, or will be, or will equipped for the coming session. (This is supposition, of course.) But in my judgment, every true friend of State Government, party to the contest and let every true and honest qualified Democrat who pays his dollar in the campaign to be represented in the Senate of California to be the choice of your State and are always ready to make a sacrifice of pride and ambition for the success of the party, who has the pride of its history at heart, if necessary, will ingly submit to the will of the majority as you would be for any cause of success.

SAN FRANCISCO, Nov. 15, 1886.

It is a matter of common talk that Mr. Hearst paid the corruption fund of the Democratic legislature out of his own pocket. Mr. Hearst considers that he has the control of the patronage upon the cattle when he is elected. But if he has any such ideas, counts without his host. The people will never recognize a claim of that kind. Even the Democrats will not stand for it, which was paid over to Mr. Hearst by the committee.

TWENTY-FIVE THOUSAND DOLLARS

will be the ruling price with the boodlers, for they have already declared that a million is a small price to a man who covets the glory as badly as does their Uncle George. Between the purchase of a few Democratic votes and the suppression of the votes of past frauds of this kind, the Democratic gang expect to reap a rich harvest out of the next session of the Legislature. But I believe their plans may go awry, for I have been told that

THE LEGISLATURE IS REPUBLICAN,

because the twenty Senators elected in 1884 hold office for four years, and the official proclamation of the Governor ordering an election for Senators in the odd-numbered districts, declared that the Legislature which would have to fix a time for the election, could not set aside the Constitution by ordering an election at any other time than the same with the Supreme Court as a precedent to hold-over office.

One of the oldest jurists in the State, and a Democrat, gives the following opinion upon the subject, and is considered by the opinion of Justice Field:

"The intention of the Constitution is that one-half the Senators shall be elected every two years, and should not be less than four. The following is the law employed:

"Article IV, Section 5.—The Senators of forty numbers, and the Senators elected in the even-numbered districts shall be numbered as hereinafter provided. At the first session of the Senate after the first election of Senators, the Senators from the even-numbered districts shall be vacated at the expiration of the first year, so that one-half of the Senators shall be elected every two years; provided that of the Senators elected at the first election after this amendment shall go out at the end of three years.

"The object of this provision was that the Senate should be renewed in part every two years, and not be wholly renewed in public opinion.

GARVANZO.

Opening of the Beautiful New Hotel There Yesterday.

A year ago, the beautiful plateau whereon the growing little town of Garvanzo now stands was tenanted only by the fat ground-squirrel and the agile *conejo*. To-day it is covered by one of the most promising young settlements in the country. Surpassingly favored by nature, Garvanzo is becoming equally indebted to the intelligent and tireless enterprise of the gentlemen who have the matter in hand. It has pleasant homes, a good livery stable, church society with a building just begun, fine water, a railroad and many other favorable belongings. It is on the main road to Pasadena, and will have completed, in a few days, a fine bridge, 700 feet long, across the Arroyo Seco. The finest thing about Garvanzo, thus far, is its hotel. Comparatively few people are aware that Garvanzo *has* a hotel; and still fewer that it has one of the costliest and handsomest little hotels in Southern California. A TIMES reporter who drove out there yesterday didn't know it; and he was most radically surprised at what he saw. The hotel was formally opened yesterday, and one hundred visitors found matter for equal surprise and admiration. On the southern edge of a superb floor-like plateau of several hundred acres, and only a few hundred feet from the T. L. A. & S. G. V. R. R., with its five trains each way daily, stands the Garvanzo hotel. It is a very attractive three-story building, of modern architecture, and large enough to accommodate fifty guests handsomely. Its grounds cover nearly five acres, and are being improved tastefully. A charming little park will be laid out among the live-oaks to the west of the hotel, and it will not be long before there will be a large and handsome Park along the Arroyo Seco, near by. The outside of the hotel is decidedly "taking," but the surprise is in store for him who steps inside. The interior is a real revelation of elegance and remarkable tastefulness. There is not in the city a hotel of such homelike interior beauty. The house is furnished, papered and carpeted with faultless good taste and much elegance, a result due to the artistic eye of Manager Terry, an experienced hotel man. The grand staircase is a thing of beauty, and the parlors little gems. The dining room is 25x36 and very pleasant. The chambers, with beautiful sets of oak, cherry, ash and walnut, are as cosy as the most exacting could ask. The doors throughout the building are of exquisite redwood. The outlook is a superb one, and the house, which seems more like a huge and elegant residence than a hotel, will undoubtedly become popular, especially as a family resort, as soon as it becomes known.

The hotel cost $30,000. The architects were Boring & Hass, and E. A. Fyke was the superintendent of construction. The lessees and managers are B. F. Terry and G. M. Hepburn, who have a year's lease with the privilege of five years, at $160 a month. They are first-rate hotel men and will make the Garvanzo "a go."

W. H. Bonsall, well known to the insurance fraternity from his twenty years' experience in the business, the last five or six of which has been spent with the Spectator Company, has returned from his three-months' visit to Los Angeles, Cal., and announces his intention of going there to reside. Mr. Bonsall's business in Los Angeles consists in purchasing acreage property and subdividing it into city lots, but his accommodating disposition will no doubt prompt him to attend to any important service that any of his old friends —officers and managers of insurance companies—may entrust to his care. He is an excellent business man, a gentleman, and an expert in insurance matters, and we regret to lose him from the fraternity.—[New York Spectator November 4.

The Evangelical Association of North America.

The Evangelical Association of North America, which, with its 124,554 members, is well known, especially east of the Rocky Mountains, also organized a German congregation in Los Angeles, two weeks ago, which, with its Sunday school, is enjoying a marked increase under the leadership of the Rev. Theo. Suhr, the present pastor. The Evangelical Association is in doctrine and method of working essentially the same as the Methodist Episcopal church. The services of the Los Angeles congregation are held in the Opera Hall at 10:30 a.m. and 7:30 p.m. every Sunday. Prayer meeting is held every Thursday evening in the parsonage, where the choir meets every Friday evening at 7:30 o'clock. This congregation owns two lots on Olive street, between Seventh and Eighth streets, on which they have built a handsome parsonage. The trustees of this congregation, who are all owners of property in Los Angeles, are as follows: Wm. Knoph, M. Golisch, George Gairing, Christian Backer, Johannes Haag. Some time ago the congregation passed a resolution to build a church on its lot on Olive street with the help of generous friends and liberal contributions by the public. The trustees, congregation and their pastor will receive every donation with gratitude. THEO. SUHR, Pastor.

How is This for Value?

Any lot purchaser in our "South Side" tract who gets a lot entitled to an $800 house can have an exact duplicate of those "elegant villa residences" on the Urmston tract by paying an additional $50. The association is having one built now as a sample. The Electric Railway Homestead Association give "full values."

Longbeed Tract Free Carriage.

2 p.m. See Chas. Victor Hall, 104 S. Spring st., before you buy.

The Electric Railway Homestead Association

Does not intend to go back on any promises. All improvements will be carried out to the letter and spirit of the promise. The splendid lots of the South Side tract will have a house good enough for every seven lots.

Think of the Effect

On the value of "Pico Heights" and "South Side" lots when the 122 houses are built and the electric railway is running. They will surely double in value.

Ain't that Elegant?

Was the remark of every one as they looked at the plan of the $4000 house to be built on "Pico Heights" tract of the Electric Railway Homestead Association.

Dedication Ball at the Raymond.

For the information of those who will attend the dedication ball at the Raymond on Wednesday evening, 17th inst., it is announced that trains will leave Los Angeles at 7:30 and 8:30 p.m. for the station at South Pasadena. Returning, trains will leave at 11:30 p.m. and 1 a.m. Chairs will be provided at the station to accommodate passengers, and the streets will be sprinkled. Arrangements are made for conveying passengers to and from depot and hotel, and ladies will find it pleasanter to go by train than by carriages. To avoid a rush of vehicles at the Raymond the proprietors would prefer that passengers go by train as much as possible.

New Hotel at South Pasadena.

The new hotel now being built for G. Lyhtfock, just east of the station, will be a fine building of three stories with a frontage of 75 feet and 70 feet deep. The lower story will be arranged for two large stores, entrance hall, offices and dining room. The two upper stories will contain some twenty-eight bed rooms, parlors, etc. Stimulated by this improvement and other blocks in contemplation, as well as the new station, a commodious and very attractive building to be begun in a few days, an active interest in the vacant lands surrounding this suburb is beginning. Leading Pasadena capitalists and real estate men have taken hold of the Dougherty property for subdivision.

Bonds Filed.

County Clerk Dunsmoor yesterday filed his official bond for his second term. The bond is for $50,000, with G. H. Bonebrake, F. C. Howes, W. G. Cochrane, H. E. Pomeroy, S. B. Hunt, C. B. Woodhead and Dr. Walter Lindley as securities.

Supervisor-elect T. E. Rowan yesterday filed his official bond in $10,000, with Richard Egan and M. A. Forster as securities.

Y. M. C. A.

The meeting for "men only" was quite largely attended last evening at the Congregational Church. Meeting every evening this week for young men. A large number of Christain workers will be present.

What Polly

To build your homestead between gnarled hills, shut out from all view and with intolerable water, when the Howes, at $100 per lot, stops the boom in prices and offers you a first-class location, high and salubrious and the whole city before you.

Large Sales.

The real estate sales of the Southern California Land Co. (Baker block) have amounted to nearly half a million of dollars since April 1st, and this in our own city.

A Few Days More

Will complete the sale of the Howes tract.

The Plans Are About Ready

For the elegant residences to be built on the "Pico Heights" tract of the Electric Railway Homestead Association. They will be "fit for a king," and will cost, respectively, $1000, $1500, $2500 and $4000 each. These are to be begun immediately.

One Hundred and Twenty-two Houses.

The Electric Railway Homestead Association will at once begin the building of the 110 houses on their Pico Heights tract. Add to these the 12 to be built on the South Side tract and you have a grand total of 122 houses. A great many towns in the State have a less number.

Idiotic Falsehoods.

The people understand the unreliable and idiotic falsehoods which crowd the papers in regard to real estate sales. The Southern California Land Co. (Baker block) pursues the one legitimate course in both its business and its advertising. That course commands the respect of the public and the confidence of buyers. See the Howes tract, which is now in its last week.

Look Out for Pico Electric Railway.

It will almost certainly be running past the "South Side" lots of the Electric Railway Homestead Association before December 15th next. Those lots will then be worth from $800 to $1000 each. Buy now and get the advance.

The Healthiest Location.

The southwest quarter of the city, with the ocean breeze in the summer and the balmy breath of vines and flowers at this season of the year, is acknowledged by every one to be the healthiest portion of Los Angeles. Who can wonder at the rapid sales of the Howes tract at $100, when lots in rocky cañons, five miles away, are offered at more than double that sum?

Free Carriages

To the Bryan tract every day, from the office of J. C. Byram, 114 First street, "Nadeau." These lots are two miles nearer than lots that are selling outside of city, on the great thoroughfare leading into the city, and only one block from line of dummy railroad. Magnificent view of the valley.

Auction Can't Compete.

Compare the location offered at auction sales, and the inflated prices of their far-away lots, with the one price of the Howes tract—$100—in the direct line of the city's progress, with pure water and splendid improvements. Auction can't compete.

Built for Cash.

All the houses of the Urmston, City Center and Williamson tracts were built for CASH by the Southern California Land Co. (Baker block). This secures good work and first-class material. The houses on the Howes tract are also being built on that sure and safe plan.

Worth a Visit at Night.

Look in to-night at the long salesroom of the Southern California Land Co. (Baker block). It is a sight that our citizens can take a just pride in.

What They Saw Yesterday.

The attention of the public was attracted yesterday by the long line of teams transporting lumber and brick for the large and handsome villa residences for the Howes tract. "That company knows how to do it," said a bystander; "it don't belong to the Silurian age."

Their Own Carriages.

Two carriages of the Southern California Land Co. (Baker block) are now in service, with good teams and careful drivers, to take the public to the different properties offered for sale.

Black Diamond Coal.

Buy your coal, wood and kindling of the Black Diamond Coal Co. Office, 19 N. Spring st. Yards, 305 Upper Main st., and 638 S. Main.

Homes for the Million.

NO GAME OF CHANCE. NO LOTTERY. Every man sees what he buys and buys what he wants, and if not then satisfied, a beautiful lot will be given him if he desires to build a home.

The Sherman Tract

Is located on the south side of Pico st., near the city limits; occupies a commanding elevation which overlooks the surrounding country in every direction; fronts the celebrated Electric Motor Railway on the north, and on the east Magnolia ave., a new street just being opened from Pico to Washington. Among the many choice locations occupying the elevated ridge that stretches from Seventh st. southwesterly to Adams, there is none more desirable than this. The phenomenal growth of the city in its "march to the sea" will soon cover this entire area, and being within ten minutes ride of the postoffice by lightning motor, soon to be running, every lot in this tract must double in value within a few months.

The tract is subdivided into 103 large lots, averaging 50x150 feet, with alleys, all having desirable fronts, and mostly covered with bearing fruits. The prices have been fixed about 25 per cent. below other property of equal value, in order to close the sale within 30 days. Prices range from $295 to $625 per lot. Terms, one-fifth cash, balance in four equal quarterly installments. EIGHT AVERAGE LOTS WILL BE DONATED to persons desiring to build.

Sales will be private and commence on the tract next

Monday, November 1, 1886,

At 10 o'clock a.m., and continue each day at that hour until completed. No sales of lots will be consummated until that day, but selections of lots may be made in advance on application. The office of the owner is with the agents,

CATARRH.

THE TERM CATARRH IS APplied to a peculiar disorder of the nostrils and adjacent parts, which prevails to an alarming extent, and is productive of very serious consequences.

The most prominent and characteristic feature is a morbid discharge from the head, varying in its nature at different times.

In some there is an almost constant flow of clear, acrid fluid, but oftener an offensive, purulent or muco-purulent, greenish-yellow matter is secreted, which accumulates in the nostrils or drops into the throat, necessitating its frequent removal by blowing the nose or expectoration, and often by both processes. Sometimes patients feel as though their whole head was in a state of rottenness, so great is the amount of matter discharged and so fetid is its odor. The patient is greatly annoyed by the constant dropping into the throat of the morbid matter from the head, and as a recumbent position naturally favors the flow downward, his rest is frequently disturbed from this cause. Many sufferers are obliged to lie with the head very much elevated in order to sleep with some degree of comfort.

In others a tough, viscid and offensive phlegm collects behind and above the soft palate, in the passage between the throat and head, adhering to the parts with great tenacity. Its lodgment embarrasses respiration and creates a sensation of irritation and uneasiness in the affected locality, which gives rise to a constant and almost irresistible desire to relieve the discomfort by drawing the mucus into the throat so as to eject it by the mouth. This practice, popularly known as "hawking," is characteristic of catarrh, and proves as embarrassing to the one affected as it is disagreeable to those around him.

Again, the offensive matter hardens and deposits itself on the membrane in the shape of dry, hard concretions, which are discharged by way of the nostrils or throat in lumps or fragments of a deep green tint. In some cases these incrustations accumulate to such an extent as to form a regular plug in the nose, which obstructs breathing and produces serious discomfort. So firmly do these incrustations adhere to the point of attachment that their removal usually requires the most violent efforts; not unfrequently they have to be torn from the membrane. Occasionally a solid cast of notable size is expelled, on which there are generally traces of blood, but in some cases the cast presents a tubular appearance, being of exact shape of the nasal cavity. This condition is indicative of ulceration, which, in time, may destroy the bony structure of the nose and produce a subsequent flattening of that organ.

Cases are occasionally met with in which a thick, viscid, slimy secretion coats the membrane of the nasal cavities and then putrefies, giving rise to a stench which is really overpowering, and sufficiently fetid to poison the atmosphere of a whole room; and there are others in which all the secretions of the membrane are suspended, causing an unpleasant feeling of dryness, heat and feverishness in the head and nose—a condition popularly known as "Dry Catarrh."

The disease speedily extends to the air cavities of the bones of the forehead and face, giving rise to a distressing sensation of heavy weight or compression over the forehead, especially in the region above and between the eyes, and to a feeling of fulness, heat, irritation, soreness or pain in the nostrils near the root of the nose, as well as in the upper part of the throat, above and behind the soft palate. Sometimes there is pain obstinately fixed in some particular part, as in the temple, on the top of the head, at the back of the neck, or behind the orbits, and, occasionally, pain manifests itself in the face of so severe a character that it is frequently mistaken for neuralgia.

The breath is always tainted and at times assumes an exceeding fetid and sickening odor. In some cases it becomes so revoltingly offensive as to render the sufferer an object of disgust to himself as well as to others.

The nasal membrane is thickened and congested, causing the nose to be stopped up sometimes on one side, sometimes on the other, and often on both, giving rise to a disagreeable, stuffy sensation in the head, and occasioning violent and prolonged paroxysms of sneezing.

The voice is weak, indistinct and husky, or of a nasal character, displaying a sort of sniffing duality. Oftentimes there is a continuous hoarseness and discordance. There is also a sense of irritation in the throat, and frequent attempts to clear the parts of phlegm, producing the sound "hem," more or less forcibly. In some cases patients complain of an uncomfortable feeling of fulness, or a choky sensation in the throat, and in others of a distressing and almost constant dryness, for the temporary relief of which they have to swallow frequently. Others, again, speak of a constant bad or nauseous taste in the mouth or throat.

The sickness or nausea is more or less and becomes weak and irritable: the appetite is capricious and nearly always bad in the morning. The patient is languid, unable to perform mental or physical labor with the usual facility, is nervous, depressed in spirits, at times fearful, timid, agitated and inclined to drowsiness and sleep, the memory weakened and permanent impairment seriously threatened.

The mucous membrane soon becomes morbidly sensitive to unfavorable influences, and in spite of the utmost care becomes affected from the slightest causes, so that at last a breath of wind upon the lining of the nose or throat becomes productive of a cold, and gives rise to serious disturbances of the respiratory organs. Thus the patient is subject to frequent and repeated colds, each attack aggravating the disease by giving it a new impulse and involving a larger extent of surface than its predecessor. In this manner the difficulty spreads from organ to organ, invading the throat, larynx, trachea and bronchial tubes, until, encroaching further and further, it reaches the finer ramifications of the bronchi, when but a slight impulse is required to send it to the lungs. Catarrh may, and often does, affect other organs in the body, especially those containing a mucous membrane, such as the stomach, bowels, kidneys, etc.

By the employment of proper inhalations in the form of medicated vapor (not steam or spray) we are able to produce immediate and direct action upon the diseased surface in the pharynx and nasal passages, for air will find its way into the most recondite and intricate cavities, where it is utterly impossible to make fluid applications. By these means every case can be cured.

Persons desiring treatment by this system of practice can use the remedy at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless unless the disease has advanced to the chest and that both lungs are seriously involved. Even then the inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing else can do with the same success. The very best references from those already cured.
